

DESOLVE - C089

Granular drain maintainer and opener

DESOLVE is a powerful and effective product which breaks up hair paper and organic residues in drains, unblocking them and maintaining optimum flow rate.

FEATURES

- Dissolves hair, paper and organic debris.
- Generates heat on dilution softening debris for faster release.
- Helps to clear blockages and maintain peak flow.
- Dissolves uric acid deposits in urinal wastes.
- By maintaining peak flow, odours from waste pipes are controlled.
- Desolve will not harm pipes, fittings or rubber seals.

APPLICATIONS

- Desolve is suitable for use in the drains of showers, bathtubs, drains, sinks, toilets and urinals.
- Ideal for use in colleges, schools, hairdressers, hotels, institutions, leisure and sports centres, offices, public authorities, etc.

DIRECTIONS FOR USE

1. Remove any excess water from the sink, urinal channel or drain.
2. Whilst holding the container at arm's length, add one capful of Desolve.
3. Slowly trickle water into the sink or drain.
4. Allow to work for 10-15 minutes and flush with water.
5. Repeat until drain is free-flowing and flush well with water.

CAUTION: Never position head over drain opening. Do not mix with other chemicals. If treatment fails to clear drain and the services of a plumber are required ensure that they are informed that Desolve has been dosed into the drain.

TECHNICAL DATA

APPEARANCE : Granules

COLOUR : White

ODOUR : Almost odourless

SOLUBILITY : Completely soluble in water

pH-VALUE, DILUTED SOLUTION : >13

FLAMMABILITY : Non flammable

PACK SIZE : 500g

USAGE PRECAUTIONS

Avoid spilling, skin and eye contact. Use eye protection and gloves. Do not inhale dust.

STORAGE PRECAUTIONS

Store upright in a dry place. Keep between 0 and 40°C. Reseal container securely after use.

HEALTH AND SAFETY

Health and Safety Data sheet available separately.
