THAW GRANULES - C102

Modern, clean ice and snow defrost granules

THAW GRANULES provide fast and effective prevention/removal of snow and ice from pedestrian walkways and car parks during cold conditions.

FEATURES

- Thaw Granules provide an effective means to dissolve ice and snow rapidly from pedestrian areas and car parks.
- Salt free and non corrosive to concrete, plastics or metals.
- Reduces carry through onto interior floors thus avoiding marking and staining of floor coverings.
- Thaw Granules crush easily underfoot to reduce risk of slipping.
- The granular form provides for easy application and economical coverage.

APPLICATIONS

- Thaw Granules are suitable for use in car parks, walkways, entrances and any outdoor area where ice and snow pose a public safety risk.

DIRECTIONS FOR USE

- Spread Thaw Granules liberally direct from the container onto pedestrian areas prior to snowfall to prevent settling.
- To treat existing ice and snow scatter liberally over the surface at a rate of 1kg per 20 metres².

TECHNICAL DATA

APPEARANCE : Granular

ODOUR : Mild

SOLUBILITY : Completely soluble in water

pH-VALUE, DILUTED SOLUTION : 7.20

PACK SIZE : 9 kg tub, 9kg bag

USAGE PRECAUTIONS

Avoid contact with skin and eyes. Do not inhale dust.

STORAGE PRECAUTIONS

Store in original container in a dry place.

HEALTH AND SAFETY

Health and Safety Data sheet available separately.
